

File activating the form and setting the order in HUB

This topic refers to the file static/FORMS/config.json.

```
[  
  "ExampleForm1.json",  
  "ExampleForm2.json",  
]
```

This file is responsible for form activation and the order of forms in the HUB.

Every form you want to see in the menu must be entered here (even if it is hidden in the HUB).

The order of the forms on the list corresponds to the order in the HUB.
