

Intalio CLS - Configuration

Description

Intalio Central Login Service

The screenshot shows the Intalio Central Login Service login page. At the top left, there is a purple circular logo with a white 'i' inside. To its right, the text "Intalio CLS" is followed by a small purple circular icon. The main heading "Witamy ponownie" is displayed in bold purple text. Below it, "Intalio Dynamic Forms" is written in smaller purple text. A message in black text says "Logujesz się na Formularz zgłoszeniowy do systemu Intalio Dynamic Forms." To the right of the message are two input fields: one for "Login" containing "admin" and another for "Hasło" with several dots. Below these fields are two checkboxes: "Pamiętaj moje hasło przez 30 dni" and "Przypomnij hasło". A large purple button at the bottom right contains the white text "Zaloguj". At the very bottom left of the page, there is a small copyright notice: "© Intalio Central Login Service 2022".

Configuration

SystemConfig.json

```
{  
  "SystemUrl": "XSYSTEM_URLX",  
  [...]  
  "IntalioCLS": {  
    "enabled": true,  
    "url": "https://localhost: 8081/"  
  }  
}
```

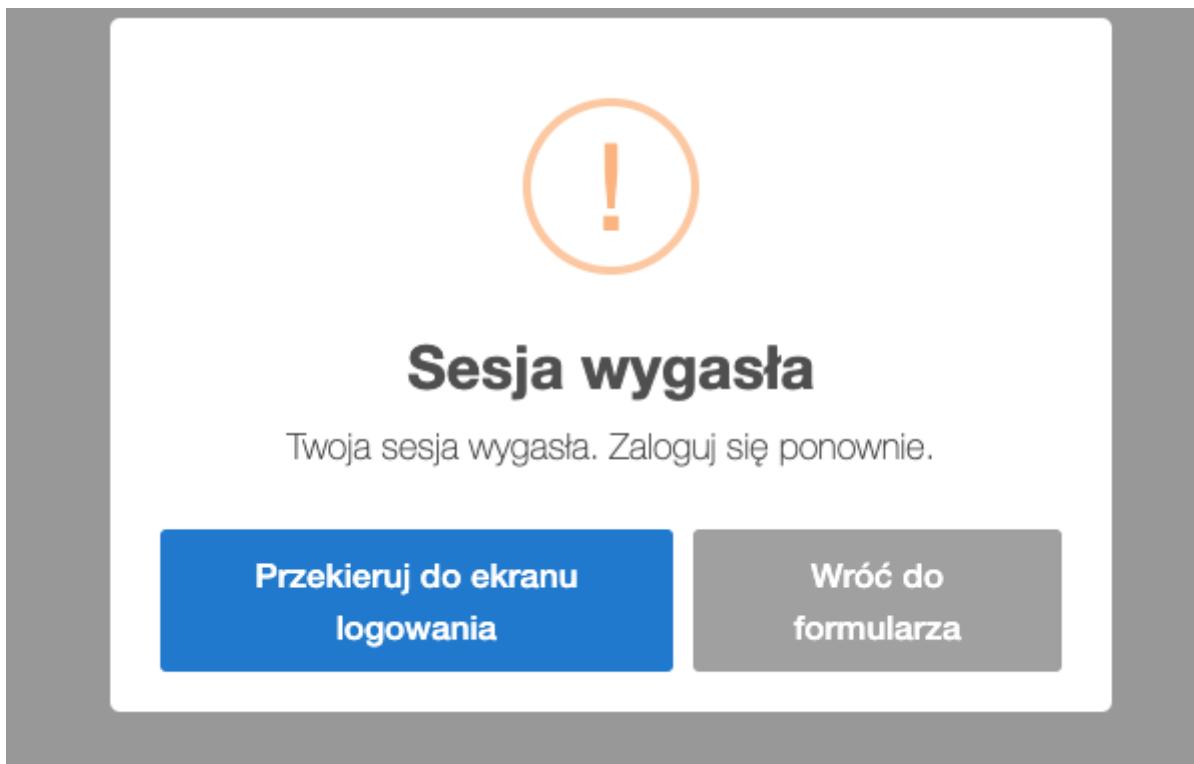

}

IntalioCLS - Container of Intalio CLS configuration

enabled - The system is active

url - Link to Intalio Central Login Service

Session verification

check_session_id (*form param*)

If this parameter is active (and Intalio CLS is active), the system will automatically check the validity of the user's session every 5 seconds. If the session expires, a popup will be displayed with information and an option to go to Intalio CLS.

translations

The language configuration for the popup is set in the translations of the form.

The available variables are:

```
"Alert - Session-Expired- title": "Session expired",
"Alert - Session-Expired- text": "Your session has expired. Please log in.",
"Alert - Session-Expired- confirmButtonText": "Redirect to login screen",
"Alert - Session-Expired- cancelButtonText": "Show form"
```

Attention!

The session verification mechanism only works when "**headless**" mode is disabled!
