

# Zimbra configuration

## Requirements

- Piler 1.3.5 or 1.3.8
- Zimbra 8.8.15
- ZI-Piler Zimlet

## Information needed:

- Piler address
- Piler SMTP port
- SSO authorization address
- Authorization server key
- Email account for notifications

## Configuration

To configure ZI-Piler zimlet, open Admin Console > Tools and migration > ZI-Piler

The screenshot shows the Zimbra Administration console interface. The left sidebar contains a navigation menu with options: Home, Tools and Migration, Downloads, Account Migration, Software Updates, Client Upload, ZI-LicenseSystem, ZI-Piler (selected), and ZI-Access. The main content area is titled 'Intalio ZI-Piler' and includes a subtitle 'Managing the ZI-Piler extension settings - The panel supports multi-server installations.' In the top right corner, there is a 'Multiserver status' box indicating 'Settings: OK' and 'COS OK'. The configuration is divided into three sections: 1. 'Intalio ZI-LicenseSystem' with fields for ControlSum (7073426ae53db1ec241f9b9d1c3ab304), Email (intalio@intalio.pl), NIP (7811845829), zimletLicenseStatus (true), and Name (INTALIO). 2. 'Intalio ZI-LicenseSystem Zimlet' with fields for CompanyName (INTALIO), EndTime (2099-03-03), Support (2099-01-01), IsTrial (false), Version (2.x), StartTime (2019-01-01), ZimletName (ZI-Piler), and UserLimit (1000). 3. 'Communication with piler' with fields for Piler address (test-piler.int.intalio.pl) and Piler SMTP port (25). Both the communication and daemon settings sections have a green 'Saved' indicator. A 'Daemon settings' section is partially visible at the bottom.

Intalio ZI-LicenseSystem	
ControlSum	7073426ae53db1ec241f9b9d1c3ab304
Email	intalio@intalio.pl
NIP	7811845829
zimletLicenseStatus	true
Name	INTALIO

Intalio ZI-LicenseSystem Zimlet	
CompanyName	INTALIO
EndTime	2099-03-03
Support	2099-01-01
IsTrial	false
Version	2.x
StartTime	2019-01-01
ZimletName	ZI-Piler
UserLimit	1000

Communication with piler	
Piler address:	test-piler.int.intalio.pl
Piler SMTP port:	25
